

Polyglot Provides Translation Solutions to Alabama Medicaid

Morrisville, NC – July 25, 2006 - Polyglot Systems, Inc., announced today that it has been awarded a contract with the State of Alabama Department of Public Health to use its ProLinguaSM language translation software. Under this arrangement, ProLingua will be deployed in Spanish by state Medicaid specialists and will be available in both English and Spanish in public health department kiosks. The agreement was effective July 1, 2006 and runs through June 30, 2008.

“We are very pleased to offer our technology as a resource to assist Alabama in providing best-in-class service to its Limited English Proficiency (“LEP”) clients,” says Dr. Charles Lee, Polyglot’s President and Founder. By using ProLingua, it is anticipated that LEP clients will be able to register and work through different healthcare interactions without the intervention of interpretation services.

About Polyglot™

Founded in 2001 by a physician who saw the need for more accessible translation services in hospitals, Polyglot develops innovative technology solutions to help people overcome language barriers and communicate more effectively. Headquartered in Morrisville, NC, Polyglot is financed by private and institutional investors. Visit www.pgsi.com for more information.
