**Charles Lee, MD, Founder & President of Polyglot Systems, Inc., Appointed
To Consulting Role with the U.S. Food and Drug Administration**

Morrisville, NC (December 4, 2013) Charles Lee, MD, Founder & President of Polyglot Systems, Inc., has been appointed a consultant to the Food and Drug Administration (FDA) Risk Communication Advisory Committee. In his new role, Dr. Lee will consult with the committee on strategies and programs designed to improve communication for patients with low health literacy and language barriers.

“All of us at Polyglot are honored to have someone of Chuck’s stature as a colleague. It is gratifying that the FDA has recognized the unique expertise he brings to the critical task of improving patient understanding and engagement” said Sims Preston, Polyglot Systems’ CEO.

Dr. Lee is the recipient of several SBIR grants from the National Institutes of Health to improve healthcare communication and reduce health disparities. He has received numerous awards, including the Health Care Heroes award from the Triangle Business Journal (Raleigh, NC) in 2007. In 2003, he received the People's Choice Award at the Council for Entrepreneurial Development's InfoTech 2003 for his work at Polyglot. His efforts at Polyglot were also recognized in 2001 with a Tibbett's Award from the U.S. Small Business Administration, which identifies "models of excellence" in technology.

Dr. Lee, board certified in internal medicine, received his Doctorate of Medicine from Northeastern Ohio Universities College of Medicine, Rootstown, OH, and his Bachelor of Science from Kent State University, Kent, OH. Lee is a past National Library of Medicine Fellow at the Duke University / University of North Carolina Medical Informatics program; a Fellow of Michigan State University Faculty Development Research, and earned an additional Fellowship at Aultman Hospital, Canton, OH, in Internal Medicine.
